### **Manuscript and its arrangement**

Manuscript for Research Paper and Review Article should be typed in double line space on A4 size paper with at least 5 cm margin on the left and 2 cm on the right. The first page of the manuscript should carry Author Name (s) including their affiliation and e-mail ID of the corresponding author. The soft copy of the manuscript only be submitted through e-mail or through online <https://e-krishiuasb.karnataka.gov.in/MJAS/Home.aspx>

The presentation of the subject should be simple, lucid and logical with appropriate headings conforming to the accepted standards of communication. Care should be taken to check the spellings, punctuations etc. All tables should be serially numbered, should not be too lengthy and should have a heading stating concisely the contents. Abbreviations should be used sparingly if advantageous to the reader. All new or unusual abbreviations should be defined when they are used for the first time in the paper. Ordinarily, the sentences should not begin with abbreviations or numbers.

The contents of Research Paper should be organised as Title, Abstract, Introduction, Material and Methods, Results and Discussion, Conclusion and References.

**First page :** The first page of the manuscript should carry the Title of the research paper, Name (s) of the Author (s), their affiliation followed by e-mail ID of the corresponding author. The authorship and its order furnished at the time of first submission are final.

**Title :** The title should be informative and concise. The title of the review article and research paper must be in TITLE CASE. The title must be typed followed by the name (s) and affiliation of authors just before the commencement of the abstract.

**Abstract :** The abstract must be brief and informative and should not be more than 300 words.

**Introduction :** The introduction should be brief and the objectives of the experiment / study should be described.

**Material and Methods :** This should include experimental design, treatments and techniques employed along with the references.

**Results and Discussion:** This should govern the presentation and interpretation of experimental / study data only and each of the experiments should be properly titled. Common names of plant species, micro-organisms, insects etc., should be supported with authenticity. Latin names should be underlined in the typescript. All headings must be typed in lower order capitals from the left hand margin. The para under a sub-heading must start from a line below the sub-heading.

**Tables :** Every table should be clear with proper reference in the text. Appropriate statistical tests should be applied to the data presented. Foot note should seldomly be used. Lengthy tables should be avoided.

**Illustrations :** The illustrations and text-figures should be clear and capable of reproduction in print. The soft copy of the photos/ figures should be separately submitted in JPEG format only. Legends to figures and photos should be typed in the foot of the figure/ photo.

Abbreviations should be used sparingly if advantageous to the reader. All new or unusual abbreviations should be defined when they are used for the first time in the paper. Ordinarily, the sentences should not begin with abbreviations or numbers.

**References :** References should be typed along with the body of the paper. These should be listed in the alphabetical and chronological order. In the text, the references should be cited as Hayman (1970) or (Hayman, 1970); Sen and Bhowal (1961) or (Sen and Bhowal, 1961). When there are more than two authors, it should be written as Tosh *et al.* (1978) or (Tosh *et al.*, 1978). References older than ten years with respect to the scientific journals are not allowed in paper. The references quoted in the text should only be included in the references section.
